Areas of expertise: Child Development, Environments, Relationships with Families, Curriculum

Number of years in the early care and education field: 16

Regions in which I would like to mentor/coach: Region 1

What mentor/coaching means to me: To me, becoming a mentor/coach means developing a trusting, caring relationship with another individual who is seeking to achieve growth within their profession. A mentor encourages questions, listens, supports, and together, helps to find answers, and come up with new ideas. Being a mentor/coach means being a part of hands on learning. It means sharing and helping others in their journey within Early Care and Education.
