

Mentor biography:

Name: Ms. Hadley Cole

Education level: Master's of Education, Boise State University

Areas of expertise: Special Education, Inclusion, Disabilities

Number of years in the early care and education field: 10+

Regions in which I would like to mentor/coach: Regions III and IV (flexible and willing to travel)

What mentor/coaching means to me:

To me being a mentor/coach means providing assistance and information to others that are looking for guidance or help through a collaborative and supportive environment. My passion is working with young children, particularly those with disabilities, and the individuals that provide services to them. I love being able to provide new ideas, insight, and resources to early childhood professionals. By working together people can accomplish much more than they ever realized. I cherish working as a team to reach a goal so everyone can share their strengths and gain valuable information in the process.
