

Mentor biography:

Name: Gina Dunn

Education level: Bachelors of Applied Science

Areas of expertise: Early Childhood Education/Counseling

Number of years in the early care and education field: 7 years

Regions in which I would like to mentor/coach: Region IV

What mentor/coaching means to me:

I have been a Mentor/Coach for 4 years in Mountain Home. During this time period I have mentored 10 students towards their Associates and Bachelors Degree. Four of my apprentices will graduate this school year from Boise State with their Bachelor's of Applied Science. I have never felt more accomplished as an advocate for early childhood education than helping and guiding these students through their education. Mentoring to me, means helping anyone who wants to improve the lives of very young children!
