

Mentor biography:

Name: Juli Pool

Education level: PhD

Areas of expertise: children with special needs, early literacy, inclusion, child assessment, positive behavior intervention & supports

Number of years in the early care and education field: 10

Regions in which I would like to mentor/coach: 4 (Boise)

What mentor/coaching means to me: To me, mentoring/coaching means working side-by-side with teachers, providing support, suggestions, and feedback; being a participant in brainstorming ideas and ways to help the classroom; and being a resource for teachers. I enjoy mentoring/coaching because I feel this is one way to contribute to the betterment of young children's early education and experiences.
